

Univerza v Novi Gorici vabi na predavanje, ki ga bo imel **prof. dr. Paolo Creminelli** (International Centre for Theoretical Physics - ICTP), z naslovom

Rojstvo vesolja (The Dawn of the Universe)

. Predavanje v okviru cikla »Znanstveni večeri« bo potekalo v

sredo, 12. decembra

2018, ob

19. uri

v dvorcu Lanthieri v Vipavi.

Sledil bo pogovor s predavateljem, ki ga bo moderirala doc. dr. Gabrijela Zaharijas.

Predavanje bo potekalo v angleškem jeziku.

Vabljeni!

Povzetek predavanja:

prof. dr. Paolo Creminelli (ICTP):

The Dawn of the Universe

What is the history of our Universe since its beginning? It may seem a too ambitious question, but nowadays we have a quite clear picture of the cosmological evolution. Going back in time we can describe the Universe as it was 14 billion years ago and we find it extremely hot and energetic. Similar physical conditions can now be reproduced in particle accelerators. But one can go further back, until the beginning of space and time: the dawn of the Universe.
